

- 纖巧 · 準確 · 穩定 · 靈活
- Slim · Precise · Stable · Flexible

**R&V** 投影機電動升降器結構堅固、外型輕巧、定位準確，而且易於安裝。R&V 能滿足您不同的需要，提供多款不同升降距離的產品型號，專為市場上大小不同的投影機及多元化的環境而設計。

R&V Projector Lifting Devices combine structural rigidity with light-weight design to achieve precise projector placement and ease of installation. R&V Projector Lift provides solution for every situation. Models are designed to handle a large range of projector sizes with a variety of travel distance available for the many differing environments encountered by the AV market.

#### ■ 纖巧

R&V 投影機電動升降器機身纖巧，配以超薄型摺合式設計，特別適合於狹小的空間環境安裝。

#### □ Slim

Products with Slim and folding design can fit for installation at all limited space.

#### ■ 準確

採用新款輕觸式定位設計，能準確地將投影機傳送到理想的投影位置。

#### □ Precise

New fixed position design with touch-and-stop control ensures the projector stopping at the exact position you need.

#### ■ 穩定

新改良電路板配合高級進口大功率摩打，使運行時倍感寧靜穩定。

#### □ Stable

Newly improved circuit and imported high power motor are applied effectively to improve the stability of traveling.

#### ■ 靈活

嶄新組件式設計，安裝及更換過程簡易，方便日後作升級之用。

#### □ Flexible

Enjoy easy installation, replacement and availability to upgrade with newly designed components.
